

### Medical Services Self-Pay Price Sheet

At Vanguard, we are committed to transparency in healthcare costs. Below, you will find the standard charges and discounted self-pay rates for some of our most commonly provided services. Please note that the prices listed are estimates. Final charges may vary depending on the specific care you receive at the time of your visit. If you have health insurance, your actual cost may be lower based on your plan's negotiated rates.

For information regarding out-of-pocket costs for patients with commercial insurance plans, please refer to the **Financial Policy for Self-Pay and Commercial Patients** available in the "Patient Forms" section of our website.
